eLearning Plus⁺

Enhancing & Scaling Your Learning Delivery

Cost effective digital learning services for Training Companies & Consultants

eLearning Plus⁺

Would you like a simple way to scale & enhance your training delivery?

Reshaping your learning delivery.

We continue to see an increase in the creation of digital learning resources that provide self-led pathways for learners or used as part of a blended learning delivery programme.

But having the experience, tools and resources to deliver these digital resources and services is cost and time prohibitive for many organisations and individuals.

This is where we can help.

As a leading developer of digital learning content, resources and learning platforms, we help you get these resources in place quickly and cost effectively.

We don't specialise in a particular training field or topic area, but rather in the creation of digital materials to support any kind of training delivery across a variety of industry sectors, both nationally and internationally.

Welcome to eLearning Plus[+], your partner for digital learning development

Providing a cost effective range of creative learning and development services:

1 Interactive, engaging digital courses & pathways

2 Learner support resources and materials

3 White label our catalogue of workplace online courses

4 Your own branded training platform for your learners

NURTURE | RETAIN | ATTRACT

How eLearning Plus⁺ is helping training companies & consultants adapt and stay ahead

Enhancing your training delivery to support new working practices and the changing needs of today's organisations will help you better engage learners and improve learning outcomes.

At eLearning Plus+, we help you extend and scale your training delivery by providing the creative skills, tools and support needed to introduce digital learning resources alongside your facilitated delivery.

Blended learning delivery

An intuitive learning platform

A pre-built online course Catalogue

Creation of guides & workbooks

Audio Podcast recording & delivery

Bespoke course Creation

A powerful course builder

Learner support resources

Interactive & animated video production

eCommerce & membership subscriptions

Build New Revenue Streams

- Provide digital training & resources alongside your facilitated delivery.

- Offer chargeable digital resources that underpin your training delivery, such as workbooks, podcasts & eBooks.

- Sell training and membership subscriptions via your learning platform for a new passive income revenue stream.

Scale Your Learning Delivery

- Extend your reach by providing your training both nationally and globally via your dedicated learning platform.

- Expand the number of courses, pathways and training resources that you offer to the market.

- Target new markets and sectors by packaging industry variants of your current training courses and resources.

Enhance Your Profile & Reputation

- Use your branded platform and high quality digital resources to boost your reputation and delivery.

- Use the powerful course builder to help you create a range of courses simply and quickly using the pre-built block components.

- Demonstrate your ability to deliver true blended learning solutions to both new and existing clients.

Three powerful ways to create engaging learning materials and resources

Bespoke Course Creation

Whether it's a one-off online course, a complete learning pathway or a global learning programme, we help you create the very best learning experiences.

- Instructional design
- Graphic design
- Enhancing basic courses
- Developing trainers to become blended practitioners
- Video and audio production
- SCORM compliant course development
- Learning Pathways

Workplace Course Catalogue

No need to create your own content from scratch. Fast track your training delivery with essential workplace courses ready to use right out of the box.

- White label
- Shared revenue
- Immediate availability
- Cover key workplace topics
- New courses added regularly
- Assessments & knowledge checks
- Learner certificates available
- Courses can be adapted if required
- Courses can be merged if required

Learner Support Resources

Engaging learning materials to support and underpin your facilitated or online training delivery.

- Presentation decks
- Infographics & doodle graphics
- Interactive PDFs
- Interactive brochures & eBooks
- Course workbooks
- Explainer videos & training videos
- Interactive video overlays
- Audio podcasts
- Job aids
- Learner surveys
